

## K'nex Workshop – 26<sup>th</sup> September 2018

Dear parents,

Next Wednesday (26<sup>th</sup> September), Year 5 will be taking part in a STEMWorks Computer Control workshop. The workshop will last for the entire day and will involve learning about logic and how to write a program to control a model which they will construct from K'nex. During the day, the teams will be assessed by the instructors and the best team will be invited to visit a local company for a half day event involving teams from around six other schools in the district.

This is a fantastic opportunity for the children to learn about computing and computer control in the real world.

In order to ensure that we can continue to run workshops like these from external providers, we are asking that families **donate £3 per child** to help towards the cost. If possible, please send the money into school or pay on ParentMail by **Wednesday 26<sup>th</sup> September**. Although the donation is voluntary, I do urge as many families as possible to contribute as the school has only limited funds.

Kind regards,

Mrs Bradshaw
